

NATIONAL INFORMATION DAY ON MARIE SKŁODOWSKA-CURIE ACTIONS (MSCA)

SUPPORT FOR MOBILITY, TRAINING AND CAREER DEVELOPMENT OF RESEARCHERS

The MSCA are part of the EU's biggest research and innovation programme Horizon 2020. Since 1996 they have provided grants to train researchers at all stages of their careers – be they doctoral candidates or experienced researchers – while encouraging transnational, inter-sectoral and interdisciplinary mobility. To date, over 110,000 researchers have benefited from the programme – among them 9 Nobel laureates and an Oscar winner. It is expected, that from 2014 to 2020 MSCA will support around 65 000 researchers including 25 000 PhD candidates. The aim of the event, which is organised by the Technology Centre CAS, is to present the programme, its achievements and impact on the researchers' careers as well as to encourage higher participation of Czech researchers and institutions. It is open to researchers, project managers, administrators as well as other stakeholders.

Date: 21 March 2018

Venue: The Czech Academy of Sciences, Národní 3, Prague 1 (room 206)

Registration: http://geform.tc.cz/infoday_MSCA2018
