

SORT WITH US!!!

Dear students,

please join us for waste sorting. Colored containers for glass (green), paper (blue) or plastic (yellow) are at disposal.

We have prepared containers for you on each ground floor of individual buildings.

What belongs where?

Paper

To the blue container:

- **you can throw away** paper covers, newspapers, magazines, exercise books, leaflets, cardboard, boxes, books, cardboard, but also papers with paper clips or even postal envelopes with foil windows,
- **You cannot dispose** of wet, greasy, charcoal, waxed or otherwise degraded paper, entire bundles of books, thermal paper (receipts), multilayer packaging, toiletries.

Glass

To the green container::

- **you can throw away** any colored and milky glass (eg non-returnable beverage bottles), empty medicine bottles
- **you cannot throw away** porcelain, ceramics, gilded and plated glass, wire glass, car glass, laboratory and ovenproof glass.

Plastics

Plastics are the most demanding in terms of space. It is therefore very important to deform and reduce it as much as possible during sorting - press, squeeze, etc.

To the yellow container:

- **you can throw away** plastic and plastic bags and sacks, foils, PET bottles from beverages, plastic packaging from cosmetics, detergents, cups, CD packaging, polystyrene and other plastic waste
- **you cannot throw away** PVC, foam, rubber, man-made fiber textiles, Tetra Pak, lino, product packaging containing hazardous substances (chemicals, adhesives, thinners, oils, paints, etc.)

10 reasons to sort?

Proper sorting is important not only ecologically but also economically. Undoubtedly, the most important arguments for sorting waste include:

1. legal obligation (Section 12 of Act No. 185/2001 Coll.),
2. improving the environment,

3. saving natural resources of raw materials and energy,
4. reduction of health risk by exposure to hazardous substances,
5. reuse of waste materials,
6. reduction of waste in dumps,
7. saving forests and improving fresh air,
8. financial savings for waste transport,
9. support for recycled production,
10. civil liability

!!! Thank you to everyone who sorts with us !!!
