

NI LabVIEW Campus Tour

Accelerating Your Innovation
and Discovery. Today.

National Instruments is bringing the latest NI technology demonstrations for teaching and research to the **Technical University of Ostrava on 3rd of December, 2013**. Visit the Campus Tour to join hands-on seminars and learn how to accelerate your innovation and discovery with LabVIEW in your measurement, control, embedded and communications applications.

**Hands-on
Seminar for
Educators and
Researchers
9:00-12:00**

Get started with NI LabVIEW System Design Software to easily acquire, analyze, and record data from any sensor using the industry-leading National Instruments modular hardware platform. Learn how to generate reliable results within budget on this flexible, expandable set of tools.

**Open Demo
Session
12:00-14:00**

See demos of products for teaching and research without leaving your campus or interrupting your class or lab schedule.

Win NI myRIO!

**Career Session
with NI Leaders
14:00-17:00**

Be a part of an exciting event that gives engineering student two hours of leadership, innovation, and career advice delivered by several of NI's leadership members followed by a dinner which provides you an opportunity to interact directly with the presenters.

Register now and reserve your spot on the LabVIEW Campus Tour.
