

International Interdisciplinary Winter School:
Smart Public Space in Prosument Energy Transition
Gliwice, Poland, 01-10 February 2023

PROGRAM SPINAKE

**Call for participation**

EURECA-PRO

General info

The International Interdisciplinary Winter School entitled: “**Smart Public Space in Prosument Energy Transition**” is organized by the Silesian University of Technology, Gliwice, Poland under the program **SPINAKE** of the NAWA Agency and under auspices of **EURECA-PRO** European Universities Initiative and will take place in **Gliwice, Poland** between **1st and 10th of Feb. 2023**.

School application

The school is dedicated to **PhD students** affiliated to universities over the world (not in Poland) having **non-Polish citizenship** and interested with school topics. Prospective candidates - PhD students interested with participation are asked to visit: <https://portal.polsl.pl/intragen/> and **send application forms** to School coordinator via email: mariusz.stepien@polsl.pl. The deadline to send application (initial willingness to participate) is **8th Jan. 2023**. The deadline can be postponed due to availability of places.

School fee and scholarship

The school participation is **free of charge**. Moreover, 15 participants will receive a **scholarship** of 4080 PLN (about 800 EUR) to cover travel costs, accommodation and meals. Participants will be informed about eligibility for scholarship within a week after sending application. The rule “first come first serve” will apply. Some exceptions from this rule can occur in order to fulfill SPINAKE program expectations.

School range and results recognition

The school is an interdisciplinary event focused on aspects of prosumpt energy management in a smart public space. The school program (details available at the school webpage) contains 50 hours of classes (lectures, seminars and labs), technical visits and 10 hours of Polish language and culture workshop. Participants will receive a school certificate confirming the training equivalent to 5 ECTS.

Dear PhD student, sounds interesting? If yes, please don't wait – send application NOW! We are looking to meeting you during the school in Gliwice.
